

IT TROUBLESHOOTING GUIDE

1. Laptop Not Starting

Resolution:

- Check charger connection
- Hold power button for 10 seconds
- Contact IT if issue persists

2. VPN Connectivity Issues

Resolution:

- Restart VPN application
- Verify credentials
- Restart Wi-Fi router
- Reinstall VPN client if needed

3. Email Login Failure

Possible Causes:

- Incorrect password
- Expired credentials
- Account lock

Resolution:

- Reset password
- Wait 15 minutes after failed attempts
- Contact IT support

4. Slow System Performance

Resolution:

- Close unused applications
- Restart system
- Run antivirus scan

5. Software Installation Request

Employees must:

- Raise IT approval ticket
- Provide business justification

6. IT Escalation Rules

Critical IT issues unresolved within 4 hours are escalated automatically.
