

VPN STANDARD OPERATING PROCEDURE (SOP)

1. Purpose

This document provides steps for employees to securely connect to the company VPN for accessing internal systems remotely.

2. VPN Access Requirements

Employees must have:

- Valid company credentials
- Approved VPN access permissions
- Installed VPN client software
- Stable internet connection

3. VPN Login Steps

Step 1:

Open the company VPN application.

Step 2:

Enter:

- Employee Email ID
- Password

Step 3:

Complete Multi-Factor Authentication (MFA).

Step 4:

Click Connect.

4. Common VPN Issues

Issue: Unable to connect

Possible Causes:

- Weak internet connection
- Incorrect credentials
- VPN server downtime

Resolution:

- Restart internet router
- Re-enter credentials
- Contact IT support

5. Security Guidelines

- Never share VPN credentials.
- Disconnect VPN after work hours.
- Report suspicious login activity immediately.
